Marijuana Use and the Adolescent Brain

Why "Medical/Legal" does not necessarily = safe

When: November 16, 2015

Time: 7:00-8:30 PM

Where: Ottoson Middle School Cafeteria, 63 Acton St, Arlington, MA

Dr. Scott Hadland will speak about marijuana and the adolescent brain. He is a pediatrician who treats patients in Adolescent Medicine at Boston Children's Hospital and patients who are actively seeking treatment in the Adolescent Substance Abuse Program Clinic.
